Defender ATX Cases

Defender Mid-Tower ATX Case

Ultra's Wizard case quickly became one of the best-selling cases of the last couple years. This doesn't happen without good reason! Ultra's case featured a sturdy steel construction and incredible expandability. So how does one improve on what sounds like near perfection? We've listened to our users and created The Defender. With the Defender, we have removed the door, included a rear 120MM fan, thumb screws and either a 350W V-Series or 400W X-Connect V-Series power supply!

The Defender also still offers the same great features that made the Wizard so popular. The case accepts AT, Baby AT, ATX and Micro ATX motherboards, has 3 5.25" drive bays and 5 3.5" drive bays (1 external, 4 internal) and a convenient USB 2.0 interface accessible right front the front bezel. Components are kept cool with front and rear fan mounts (80MM front, 120MM rear) and Intel TAC compliant CPU duct and VGA vent.
